Description

Precious wooden boat built by the historic and well-known Cantiere Nautico Montisola on Lake Iseo. The boat in question was built by the expert hands of the shipwrights of the centuries-old Archetti family. The hull is characterized by the iroko clinker planking and by the furring in braided cord typical of the seafaring tradition. Further elements of classicism are the mahogany washboard and the oak frames left exposed. All these traditional constructive aspects are flanked by the most advanced gluing systems in order to obtain a solid and robust final product. The model in question is in good condition and is powered by a 115 hp Evinrude outboard. Further information on request.
